

In the Pheonix-Metro area there are few radio stations that provide a family freindly orientated broadcast. Air-1 Radio does that here on station 88.7. The station gives me daily encouragement and has a positive influence in my life. I know I am not the only one here in the Phoenix area that benifits from the daily broadcast that Air-1 gives us. Having a different station broadcasting over Air-1's signal will have Phoenix lose one of the few positive and family encouraging stations that airs in Phoenix. Please consider not to set up the new LPFM that could take Air-1 from Phoenix. You would taking away a good and positive influence to the Phoenix area.
